This is Nelly. She's a nurse. She lives with her two children and husband called Felipe. She works at a hospital from Monday to Friday. She **looks after sick** people.

She gets up at six o'clock in the morning. She takes a shower and puts on her clothes. Then she eats breakfast at half past six. At seven o'clock, she drives her car to the hospital.

Nelly starts work at eight o'clock. She works very **fast** the whole day. She helps the doctors and does different things. At twelve o'clock, she has lunch. She usually goes home at five o'clock, **but nowadays** she goes home around 9 pm because there are many people **suffering** from covid-19.

When Nelly arrives home, she takes a shower immediately. She has dinner and she cannot **hug** her children or husband because it is **risky**. They only talk while they take the necessary precautions.

Around 11 pm she finally goes to bed. During the day (from Monday to Friday) Nelly's children attend online classes and study while Felipe teleworks and cooks. But, every weekend they see a film and play videogames together. Everybody in this family knows that it is a difficult time, but they are happy anyway, and Nelly feels excited because **her job** is very important!
